

**INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, SEPTEMBER 10, 2003 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity nationwide was light. Nationally, 92 new fires were reported. Four new large fires were reported, one in the Southern California Area and three in the Northern Rockies Area. Two large fires were contained in the Northern Rockies Area. Very high to extreme fire indices were reported in Arizona, California, Hawaii, Idaho, Montana, New Mexico, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Williams-Rhodes) is assigned to manage Blackfoot Lake Complex, Wedge Canyon, Robert, Middle Fork Complex, Trapper Creek Complex, Crazy Horse, Rampage Complex, and Little Salmon Creek Complex. An Area Command Team (Ribar) is assigned to manage Mineral-Primm, Fish Creek Complex and Cooney Ridge.

MYRTLE CREEK, Idaho Panhandle National Forest. A Type 1 Incident Management Team (Frye) is assigned. This fire is in logging slash, mixed conifer and brush, five miles northwest of Bonners Ferry, ID. Precipitation, cooler temperatures and higher humidity moderated fire behavior but limited accessibility. Structure protection is in place for 66 residences and one commercial property.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This incident in timber is 19 miles east of Kalispell, MT and comprised of the Beta Lake, Doris Mountain, Lost Johnny, Ball Creek, Wounded Buck, Doe, Wildcat, Upper Lid, Dead Buck and Blackfoot Lake fires. The precipitation received allowed crews to construct direct fireline. Structure protection is in place for 55 residences.

MIDDLE FORK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Belton, Center and Harrison fires, is in timber, five miles east of West Glacier, MT. Wetting rains over the last 24 hours temporarily halted fire spread. Structure protection is in place for 20 residences.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 14 miles northwest of Polebridge, MT. Fire continued to smolder and creep in heavy mixed conifer stands with downed fuels.

RAMPAGE COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Double Mountain 1, Double Mountain 2, Riverview 1, Riverview 2 and Rampage, is in timber, 15 miles southeast of West Glacier, MT. Double Mountain 1 and 2 have grown together. Rain temporarily halted fire spread. Structure protection is in place for 127 residences.

LITTLE SALMON CREEK WILDLAND FIRE COMPLEX, Flathead National Forest. A Fire Use Management Team (Rath) is assigned. This complex is 47 miles southeast of Kalispell, MT in the Bob Marshall Wilderness. The incident, comprised of the Gordon, Molly Creek, Leota Oak, Gyp, Crimson, High, Mid and Some Creek fires, is in ponderosa pine and mixed conifer. Fire continued to creep and smolder.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Cable) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. Rain temporarily halted fire spread. Structure protection is in place for 100 residences and six commercial properties.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned to the Trapper Creek, Paul Bunyan and Trout fires; a Type 2 Incident Management Team (Saleen) is assigned to the Wolf Gun fire. The complex is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Rain temporarily halted fire spread. Structure protection is in place for three commercial properties.

CRAZY HORSE, Flathead National Forest. A transfer of command from Chrisman's Type 2 Incident Management Team to a Type 3 organization occurred yesterday. This fire is in mixed conifer with heavy dead and downed fuels, eight miles southwest of Condon, MT. Intermittent rain and snow limited fire activity to smoldering hot spots.

FISH CREEK COMPLEX, Lolo National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by Lt. Col. Gregory Schultz, at Fort Hood, TX is assigned. This incident, comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, is 35 miles west of Missoula, MT. Smoldering and creeping fire behavior with minor torching was observed.

COONEY RIDGE, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management Team (Kechter) is assigned. This incident, comprised of the Cooney Ridge, Gratton Gulch, Gilbert and Strawberry fires, is in timber, 11 miles east of Florence, MT. Fire activity was limited to smoldering ground fire.

MINERAL-PRIMM, Lolo National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This incident, comprised of the Mineral-Primm, Stewart Peak, Upper Rattlesnake, and Boles Meadows fires, is in timber, 19 miles northeast of Missoula, MT. Fire behavior was minimal and no sustained runs occurred.

LINCOLN COMPLEX, Helena National Forest. A Unified Command remains in place with a Type 2 Incident Management Team (Hoff), Lewis and Clark County Sheriff's Department and Powell County Sheriff's Department. A transfer of command from Hoff's Type 2 Incident Management Team to a Type 3 organization will occur on 9/12 at 0600. This complex, comprised of the Moose-Wasson and Snow-Talon fires, is ten miles west of Lincoln, MT. Fire behavior mitigated due to cooler temperatures and higher humidity. Structure protection is in place for 30 residences.

BEAVER LAKE COMPLEX, Clearwater National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This incident, comprised of the Beaver Lakes, Siah Lake, Pleasant, Rhodes, Bears Oil, Cayuse, Eagle Creek, Eagle Creek East, Fish, Queen Creek and Hopeful 2 fires, is 19 miles southwest of Missoula, MT. Fire continued to smolder. The Clearwater National Forest south of Highway 12, except for the airstrip at Fish Lake, has been reopened to public access. Increase in acreage is due to more accurate mapping.

SLIM'S COMPLEX, Nez Perce National Forest. This complex, comprised of the Slim's, Stillman and Poet fires, is 35 miles east of Grangeville, ID. Fire activity was limited to smoldering ground fire.

SAPP, Nez Perce National Forest. This incident, comprised of the Sapp and Richardson fires, is in timber and grass, 22 miles south/southeast of Elk City, ID. Rain fell over the fire area. Fire activity was limited to smoldering ground fire. Structure protection is in place for two residences.

CAYUSE LAKE COMPLEX, Clearwater National Forest. A transfer of command from Cones' Fire Use Management Team to a Type 3 organization occurred yesterday. This incident, comprised of 37 fires, is in timber, 41 miles southwest of Lolo, MT. The Clearwater National Forest rescinded the area closure south of Highway 12.

EAST COMPLEX, Yellowstone National Park. This incident, comprised of the East and Grizzly fires, is four miles east of Fishing Bridge Junction, WY. No significant activity was observed. Interior 1000-hour fuels continued to burn.

BRUNDAGE, Gallatin National Forest. This fire is in mixed conifer, ten miles northeast of Gardiner, MT. No new information was received.

GOLD 1, Bitterroot National Forest. This fire is in heavy timber, nine miles northeast of Corvallis, MT. Fire continues to creep and smolder in heavy fuels.

NORTH CHELSEA, Fort Peck Agency, Bureau of Indian Affairs. This incident is 12 miles northwest of Poplar, MT. Strong gusty winds caused running in wheat, other crop fields and pasture land.

NDS = North Dakota State

NORTHWEST AREA LARGE FIRES:

An Area Command Team (Greenhoe) is assigned to manage the portion of the Booth fire west of the Cascade Divide. The Booth fire is part of the B&B Complex.

NEEDLE, Okanogan/Wenatchee National Forest. A Type 1 Incident Management Team (Hart) is assigned. This fire is in timber, 22 miles northwest of Winthrop, WA. The fire burned down both sides of the Methow River and into Trout Creek. Decreased fire activity was observed due to higher relative humidity and lower temperatures. All hiking trails in the area have been closed. Structure protection is in place for 100 residences. Reduction in acreage is due to more accurate mapping.

B&B COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Martin) is assigned. A Type 2 incident Management Team (Gardner) is assigned to the portion of the Booth fire that is west of the Cascade Divide. This complex, comprised of the Booth and Bear Butte fires, is in timber with heavy ground fuels. The complex is 14 miles west of Sisters, OR. Fire behavior was moderate due to precipitation, lower temperatures and higher relative humidity.

MAPLE, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Halloway/Reed) is assigned. This fire is in timber, 30 miles north-northwest of Leavenworth, WA. Fire growth was due to rolling debris and isolated uphill runs in areas of heavy fuel concentrations.

BULL SPRINGS 2, Umatilla National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This fire is in timber, 24 miles south of Ukiah, OR. Snags and heavy fuel concentrations continued to burn.

GLACIER PEAK COMPLEX, Mt. Baker-Snoqualmie National Forest. This incident is in timber, brush and heavy downed fuels, 16 miles southeast of Marblemount, WA. Minimal fire active was observed.

MINERAL PARK, Mt Baker-Snoqualmie National Forest. This fire is in heavy timber, brush and deep duff, 16 miles southeast of Marblemount, WA. Minimal fire active was observed.

MOUNT RAINIER COMPLEX, Mount Rainer National Park. This complex, comprised of the Panther, Redstone and Chenuis fires, is in heavy timber with heavy downed fuels, 13 miles northeast of Packwood, WA. Rain and cooler temperatures reduced fire activity on the Redstone and Panther fires. A portion of the northern loop trail remains closed. Highway 123 is open to single lane traffic due to felling operations.

LOST LAKE, Gifford Pinchot National Forest. This fire is in brush and timber, seven miles east/southeast of Packwood, WA. The fire spread from brush into sub-alpine timber and backed down slope through timber. Weather hampered the monitoring of the fire.

NORTHERN CALIFORNIA AREA LARGE FIRES:

COVELO COMPLEX, Mendocino National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This fire is in timber, 15 miles east of Covelo, CA. Small runs from rolling material were observed.

GRINDSTONE COMPLEX, Mendocino National Forest. A Type 1 Incident Management Team (Vail) is assigned. This complex, comprised of 39 confirmed fires, is in chaparral and mixed conifer, 30 miles west of Willows, CA. Fire activity moderated due to higher relative humidity and light rain on some fires. Structure protection is in place for 11 residences.

SMOKEHOUSE COMPLEX, Mendocino National Forest. A Type 2 Incident Management Team (Szczepanik) is assigned. This complex is in brush with scattered timber and grass, 15 miles northeast of Potter Valley, CA. All fires received light rain for about six hours.

SHF COMPLEX, Shasta-Trinity National Forest. This fire is in timber, 50 miles southwest of Redding, CA. Fire behavior was minimal.

HUMBOLDT LIGHTNING SERIES, Humboldt-Del Norte Unit, California Department of Forestry & Fire Protection. This fire is in timber and logging slash, near Fortuna, CA. Fire behavior was minimal due to rain.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

BRIDGE, San Bernadino National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Domanski), Running Springs Fire District, San Bernardino County Fire Department, and the San Bernardino County Sheriff's. A transfer of command from Domanski's Type 2 Incident Management Team to a Type 3 organization will occur on 9/11. The fire is in grass, brush and timber, four miles south of Lake Arrowhead, CA. No visible fire activity was observed. Highway 330 remains closed; firefighters are working to minimize the length of time for the closure. The voluntary evacuation order for the communities of Smiley Park, Running Springs, Nob Hill, Enchanted Forest and Fredalba has been lifted.

DEXTER, Inyo National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is in Jeffery pine and sagebrush, 25 miles south of Lone Pine, CA. A backing fire with occasional torching was observed. The fire is in monitor status.

MUD, Stanislaus National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is in timber, five miles southeast of Bear Valley, CA. Low intensity surface fire was observed. This will be the last narrative report unless significant activity occurs.

OUTLOOK:

Fire Weather Watch: Gusty north to northeast winds and low humidity in the Sacramento Valley and surrounding foothills Wednesday night through Thursday.

Weather Discussion: High pressure will build over the Pacific Northwest, northern California, Idaho and western Montana. An upper level trough over Rockies will bring unsettled weather from the Southwest northward to Wyoming and eastern Montana.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p>NORTHERN ROCKIES AREA Cooler with isolated to scattered rain showers and gusty winds east of the continental divide in Montana and North Dakota.</p>	<p>Idaho: 65 to 75 Montana: 60s. North Dakota: 65 to 75</p>	<p>Idaho: 30 to 45% Montana: 30 to 45% North Dakota: 40 to 55%</p>	<p>Idaho: North 5 to 15 mph Montana: Northwest 10 to 20 mph with stronger gusts east of the divide North Dakota: North 15 to 25 mph</p>
<p>NORTHWEST AREA Partly to mostly cloudy. Chance of showers western Washington and northwestern Oregon. Only isolated showers east of the Cascades.</p>	<p>Cool. Mostly 50s and 60s.</p>	<p>High humidity. Mostly at or above 50% west of Cascades and 25 to 45% eastside.</p>	<p>Breezy particularly east of Cascades. Generally west 5 to 12 mph, locally to 20 mph east of Cascades.</p>
<p>NORTHERN CALIFORNIA AREA Clear.</p>	<p>60s and 70s coast and 80s to near 90 inland.</p>	<p>12 to 20%</p>	<p>Increasing to north to northeast 12 to 22 mph with higher gusts</p>
<p>SOUTHERN CALIFORNIA AREA Morning coastal low clouds and fog into the coastal valleys mainly south of Point Conception, otherwise sunny.</p>	<p>65 to 75 coastal areas. 70 to 85 mountains. 80 to 90 valleys. 80 to 90 upper desert. 90 to 100 low desert.</p>	<p>10 to 20% desert. 20 to 30% mountains. 30 to 40% valleys. 50 to 70% coast.</p>	<p>Northwest to northeast 5 to 15 mph, except southwest to northwest 5 to 15 mph coastal areas.</p>
<p>ROCKY MOUNTAIN AREA Widespread showers and thunderstorms over much of the Rocky Mountain Area with a possibility of snow in the mountains of Colorado and Wyoming.</p>	<p>Highs 50s and 60s western portions, higher elevations 40's, with lower to mid 80s eastern sections.</p>	<p>Relative humidity values will be greater than 20% through out the Rocky Mountain Area</p>	<p>Northwesterly winds 10 to 20 mph over western sections, and 15 to 30 mph over South Dakota, with a south wind 15 to 20 mph over eastern sections.</p>
<p>EASTERN AREA Partly cloudy and breezy over Wisconsin and the western 1/3 of the upper peninsula of Michigan</p>	<p>80 to 88 over the central Great Lakes</p>	<p>32 to 42% over parts of western Wisconsin</p>	<p>South winds increasing to 15 to 25 mph across the western half of Wisconsin</p>
<p>EASTERN GREAT BASIN Idaho, Bridger-Teton: Cool with scattered showers in the east, snow showers above 7000 feet. Likely showers in southeast Idaho. Utah, Arizona Strip: Mostly cloudy with likely showers in the morning and chance of showers in the afternoon.</p>	<p>Idaho, Bridger-Teton: 38 to 55 mountains, 55 to 72 valleys. Utah and Arizona Strip: 34 to 56 northern Utah, 52 to 82 southern Utah and the Arizona Strip.</p>	<p>Idaho, Bridger-Teton: 30 to 55% mountains, 22 to 40% valleys. Utah, Arizona Strip: 50 to 82% mountains, 30 to 48% valleys.</p>	<p>Idaho, Bridger-Teton: Light and variable. Utah, Arizona Strip: North/northwest 10 to 20 mph.</p>

DOWNHILL FIRELINE CONSTRUCTION CHECKLIST

Downhill fireline construction is hazardous in steep terrain, fast-burning fuels, or rapidly changing weather. Downhill fireline construction should not be attempted unless there is no tactical alternative. When building downhill fireline, the following is required:

- Crew supervisor(s) and fireline overhead will discuss assignments prior to committing crew(s). Responsible overhead individual (TFLD or ICT4 qualified or better) will stay with job until completed.
- Decision will be made after proposed fireline has been scouted by supervisor(s) of involved crew(s).
- LCES will be coordinated for all personnel involved.
 - Crew supervisor(s) is in direct contact with lookout who can see the fire.
 - Communication is established between all crews.
 - Ensure rapid access to safety zone(s) in case fire crosses below crew(s).
- Direct attack will be used whenever possible; if not possible, the fireline should be completed between anchor points before being fired out.
- Fireline will not lie in or adjacent to a chute or chimney.
- Starting point will be anchored for crew(s) building fireline down from the top.
- Bottom of the fire will be monitored; if the potential exists for the fire to spread, action will be taken to secure the fire edge.
